NEW AMBITIONS FOR THE FITE – TEXTILE BIENNIAL

« The FITE – Textile Biennial – Clermont-Ferrand, a unique event of its kind, that honours the traditional craftsmanship, threatened by globalisation, and the creativity of contemporary artists using textile as a medium. Organised every two years in Clermont-Ferrand, it affirms its international reach by exporting itself to another country in odd-numbered years – in Brazil in 2025. By its originality, its humanist values and the exceptional quality of its research, it will certainly attract a wide audience. For this 7th edition, it changes its timetable, starting on July 2 and extending some of its exhibitions until January 2025. The City of Clermont-Ferrand, Clermont Auvergne Métropole and its partners still strongly support this international cultural event. I'm inviting you to discover this textile's biennial in a dozen institutional places dedicated to culture, in particularly the musée Bargoin for the *PLAY* international exhibition. »

ABOUT THE FITE - TEXTILE BIENNIAL

Through its topic, *PLAY*, the 7th edition of the FITE, invites you to open up, at the time of the 2024's Olympics Games, to the notion of game, casualness, collaboration, pleasure, challenge and hope. It's an encouragement to take another path and to develop a different look on fundamental issues that push and revitalise our contemporary society: environmental crisis, our relationship with digital technologies, questions about equality and identity, postcolonial challenges, knowing how to live and work together. The Biennial's curators have invited the Sesc São Paulo team to suggest Brazilian artists, generating exchanges, comparative approaches and a creative and artistic synergy between French and Brazilian participants.

For this edition, the FITE presents: 18 exhibitions, including 15 in Clermont-Ferrand, 4 in associated programming and 3 in Cervières, Retournac and Lyon, thanks to the artworks of 50 artists, designers and heritage collections of 32 different nationalities. A festive opening week from July 2 to 7; a programme of exhibitions throughout the summer until September 22; and two exhibitions at the musée Bargoin and the musée d'art Roger-Quilliot until January 12, 2025.

Curators: HS_Projets; Simon Njami, Christine Athenor, Thomas Leveugle, Nolwenn Pichodo | musée d'art Roger-Quilliot director Christine Bouilloc | Sesc São Paulo; Juliana Braga, Carolina Barmell, Fabiana Delbony

PLAY

From July 2, 2024 to January 12, 2025

The *PLAY*'s exhibition offers us a place for encounters between textile creation and the world of game. It invites us to play along, to explore interstices between reality and virtuality and to take a playful look at the world. Refusing the traditional opposition between play and seriousness, *PLAY* invites us to immerse into an experience of casualness, humour, discovery, challenge, but also cheating, simulation and bluffing!

- 🕒 From July 2 to 7, the museum is exceptionally free and open every day from 10 am to 6 pm.
- From July 9, regular prices and hours apply. For more information, please contact the museum's reception desk.

A second work questions the place of the athletes coming from minorities within the Olympics Games.
